(\*) : Required field

Save Order

- Change position of fields
- Make description cell bigger
- How can I edit the predefined values for: "Order Condition", Order Type"? Seems you created a predefined list. Can I edit it ?
- Order Status is a calculated Value, no need to show here. It depends on the status of the Order and the Shipment. It will be used to put some edit limitations.
  - o When order is created shows "Open" (Everybody can edit whole order)
  - o When Zone write Confirmation Date, it shows "To Factory" (Only Zone and Factory can edit this order, Agent can only see)
  - o When Factory write Confirmation Date, it shows "On production" (Only Factory can edit Products, Zone can edit only Order Information and Delivery information, Agent can only see)

## ORDER DETAIL / HEADER

- Change position of the fields according to attached images.
- Beside of position of fields mind that as a general rule I don't like to have so much distance between the name of the field and the data
- Some fields has to be editable even from upper users. (follow attached images)
- We have to write the currency after a value
- When click on "Update Order" beside of save changes it should update values of the order. (Now, if we add some product or change any quantity we have to return to orders list and open the order again to update values)
