Add/Update

- After write and save a name like **“Hanoi International School – HIS”** , I get this **“Hanoi International Schoo...”**

108	108 - Minsk	VN	MKN	English	SC	MINSK
118	118 - Hanoi International Schoo...	VN	MKN	English	SCH	Hanoi International School - HIS

- If I edit again the name I can see that has been saved as **“Hanoi International Schoo...”**, not with it’s original full name

PATTERN LIST

- The new column widths are not correct.

The screenshot shows a table with columns: CODE, GROUP, DESCRIPTION, DATE, UPDATE, NOTES, SKETCH, PARTS, DETAIL, and ACTIONS. Several columns are crossed out with large red 'X' marks. Red arrows point to the 'GROUP' and 'DESCRIPTION' columns with the text 'MAKE IT 150% BIGGER' and 'MAKE IT 100% BIGGER' respectively. A red box highlights the 'NOTES' column. The table contains 7 entries. At the bottom, there is a pagination bar showing 'Showing 1 to 7 of 7 entries' and navigation links: First, Previous, 1, Next, Last.

- After edit or create a Pattern it doesn't return to same position on the list and keep filters if there where.

PATTERN PARTS

- When edit, after write the Part Code I have to use the mouse to go to Description. I should be able to do it without use the mouse, just by press TAB key. (If this is difficult to implement just leave it)

The screenshot shows the 'Pattern Information' form. On the left, there is a preview of pattern parts labeled A, B, C, and D. On the right, the form has fields for 'Code' (containing 'E'), 'Description' (containing 'in English'), and 'VN' (containing 'in Vietnamese'). A red arrow points from the 'Description' field to the 'VN' field with the text 'TAB'. At the bottom right, there is an 'Add/Update' button.

CREATE PROJECT

- When name of the customer is long it shows only part of it. But filter engine is working only on what is shown. Then for example in that case if I type "International" or I type "School" I will not show any result.
