

PATTERNS

PATTERN LIST

- The image of sketch and Parts are not on proportion. You said thumbnails are 80 x 80 , It means that I have to prepare the sketches square?

K1	Front 2pcs Bottom		

## PATTERN VARIATION

- Show “Parts” instead of “Sketch”
- Put the table next to the “Parts” (Same as PATTERN PARTS)
- **ADD PARTS**
  - o I need to see the “Parts” draw while editing the parts. Make the pop up screen wider, show “parts” sketch on the left and put the table on the right. The table can be much more narrow.
  - o The column of Part should show Code + Description (EN) , no need viet description
