

COSTING

COST LIST

COSTING INFORMATION / Images View

- The images of Sketch and Parts are not in right proportion

COSTING INFORMATION / Edit

- If on the process of fill info I have to change the Sketch file it shows error when click on save, and after that I can't click on Update anymore. So I have to exit dismissing the changes and proceed again and be sure I choose the right file. (I think I found this bug on some other screen but I didn't take note)

COSTING VERSION INFORMATION

Version List

- Column "Date Creation" don't show any information. We can cancel this field

Version List

Add Version

| VERSION No. | DESCRIPTION | WASTE (%) | MARGIN (%) | FACTORY COST | WEIGHT (gr) | VOLUME (cm3) | DATE CREATION | DATE UPDATE | ACTIONS |
|-------------|------------------|-----------|------------|--------------|-------------|--------------|---------------|-------------|---------|
| 0 | No customization | 0 | 0 | 110,000.00 | 150 | 650 | | 08/10/2016 | |
| 1 | Sides print | 0 | 0 | 130,000.00 | 150 | 650 | | 08/10/2016 | |

Add Version

- When Save a new version appear this msg “Do you want to add to price list?”

This is not performing well. If click on “Accept”

- If on the Price List Factory there is no other Code as the Code of this Cost Code it don't copy the Code + Version into the price list. (so same as click on “Cancel”)
- If in Price list Factory there are other versions of the new Code+ Version created, then it copies the new code + version.
- Beside of that we have to take care of 2 more things.
 - o First, copy only to the Price lists of the Cost Season. Now it copies to all existing Price lists
 - o Second, copy only if this Cost Code has the cell Price List “Yes”
