ADMIN
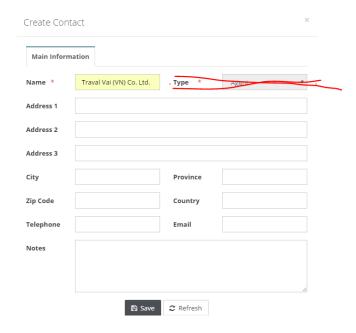

AGENT

CREATE
- CREATE CONTACT :.
  - No need to Show TYPE, make NAME field bigger

CUSTOMER

CREATE
- ERROR when create a new customer when logging in as Factory or Zone user. The ZONE list is empty and I can´t choose any Zone

- When logging in as Agent, Zone list is empty as well (should not be shown as we are already logged in in a zone), but leaving this field blank it allows to create the Customer and automatically add the Zone to the customer.

USER

CREATE
-   I see that when we create a User, instead of record "User" on Contact Type, it records "Particular"

CONTACTS

EDIT
-   I can´t save the changes on contacts when edit the records.
